

The Polytechnic Engineer Volume 11 (Paperback)

Filesize: 4.39 MB

Reviews

The most effective publication i at any time read. We have study and i am sure that i will likely to read yet again once again in the foreseeable future. You will not truly feel monotony at anytime of your time (that's what catalogs are for about in the event you request me).

(Mr. Rafael Hoeger)

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1911 Excerpt: .of the typical elements show a tendency to revolve clockwise in the order of their groups, from an angle of about 60 for the H F line to about 30 for that of O S. After this, the rotation is continued by the lines of the corresponding chemical families reading (in the Periodic Table), however, from left to right from the Cl Br I group to that of Mn and Sm, and, simultaneously from right to left from the Se Te group back to that of Fe, Ru and Os. The slope of the Argon group would doubtless not be so steep if the density of the solid gases were determined. Likewise the densities of solid chlorine and bromine should determine a more consistent slant than their line has at present. The fact that I, a solid, is exactly on the line of Cl and Br, liquids, can be accounted for by a slight difference in the density of solid and liquid I. The relation implied by the foregoing observations may be stated as follows: The flap form found in Ramsay s Modern Chemistry, Theoretical and Systematic, will be found of great service in following the diagram. Omitting the typical members, the atomic volumes of elements of the same chemical family constitute a rectilinear function of their respective atomic weights, the location of each element being determined by the periodic intersection of its series line with the Lothar Meyer curve, Group VIII being read vertically. That...
