## A TREATISE ON DIFFERENTIAL EQUATIONS SUPPLEMENTARY VOLUME VOLUME 2

To get **A Treatise on Differential Equations Supplementary Volume Volume 2** eBook, you should access the hyperlink listed below and save the file or gain access to additional information which might be have conjunction with **A TREATISE ON DIFFERENTIAL EQUATIONS SUPPLEMENTARY VOLUME VOLUME 2** book.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 42 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1865 edition. Excerpt: . . . then passes on to the general theory. General Theory. 2. Given an equation of the form  $s f(xv, xs, \dots, xn) av^2, \dots, an$ , the number of arbitrary constants  $av, as, \dots, an$  involved being equal to the number of the independent variables  $xv, xt, \dots, xn$ , we obtain by differentiation and elimination of the constants a partial differential equation of the first order. Of this the proposed equation is said to constitute a complete primitive. The form of the above process which it seems best, as throwing light upon the inverse problem of deducing the complete primitive from the partial differential equation, to employ, is the following. Let the given primitive, solved with respect to one of the arbitrary constants  $av$  be presented in the form  $(, \dots, xn, z, a2, \dots, 0)$  (1). Differentiating with respect to each of the independent variables we have a system of  $n$  equations of the forms These  $n$  equations enable us first to eliminate the  $n-1$  constants  $a2, an$ , and so deduce the partial differential equation sought in the form secondly to determine the  $n-1$  constants as functions of  $a; , \dots, xn, z, pv, \dots, pn$  in the forms As the system formed of these  $n-1$  equations, together with the previous one, is merely another form of the system (2) obtained by directly differentiating the primitive, it...
