Reviews

This book is definitely not effortless to start on reading through but extremely fun to learn. Better than never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.

This grows a foot high; the stalk is round and thick, but rarely stands quite upright; it is greenish and purplish, and is covered with a kind of grey powder unctuouB to the touch. The leaves are large, broad, and of the shape of an arrow-head, they stand on long stalks, and are of a pale green above, and greyish underneath, being there covered with this grey powder. The flowers are inconsiderable, and are of a greenish yellow, and they stand in long spikes at the tops of the branches; the plant is common in farm yards. The young shoots are eaten as spinage, the juice of the whole plant works gently, and well by urine; and the dried herb is used in decoctions for glisters. The Hermodactjtl Plant. Hermoductylus. A BEAUTIFUL plant, having more the aspect of a garden flower, but it is common wild in the East. The root is roundish, but flatted, and indented at the bottom, and smaller at top. The leaves are small and broad; they are sharp at the point, and of a deep green colour. The flowers are large and of a whitish colour, veined and striped with purple; this is the best account we have received of the plant, but part of it comes with less authority than one would wish to things of this kind. The root is dried and sent to us. It is...
