

A Very Short Tour of the Mind: 21 Short Walks Around the Human Brain (Hardback)

By Professor of Psychology Michael C Corballis

Overlook Duckworth, United States, 2013. Hardback. Book Condition: New. 193 x 132 mm. Language: English . Brand New Book. Modern computers might be faster, and whales might have larger brains, but neither can match the sheer intellect or capacity for creativity that we humans enjoy. In this gem of a book, Corballis introduces us to what we've learned about the intricacies of the human brain over the last fifty years. Leading us through behavioral experiments and neuroscience, cognitive theory and Darwinian evolution with his trademark wit and wisdom, Corballis punctures a few hot-air balloons; Unleash the creativity of your right brain!) and explains just what we know--and don't know--about our own minds.

Reviews

This book will be worth buying. Better than never, though I am quite late in start reading this one. You may like how the blogger compose this publication.

-- Mrs. Kylie Oberbrunner II

Unquestionably, this is actually the very best job by any publisher. It really is basic but unexpected situations within the 50 % from the book. I discovered this book from my dad and I advised this publication to discover.
