GOAL MAPPING: HOW TO TURN YOUR DREAMS INTO REALITIES

Watkins Media. Paperback. Book Condition: new. BRAND NEW, Goal Mapping: How to Turn Your Dreams into Realities, Brian Mayne, The Goal Mapping system is a tried, tested, proven and popular method for setting and achieving goals in any area of life, and in any endeavour. Why are some people so much more successful than other, and what does it take for people to achieve their true desires? It was this burning question that inspired Brian Mayne, to come up with the "Goal Mapping" system. The system has achieved formidable success as part of corporate training, with students and school children indeed, individuals in personal development workshops. The "Goal Mapping" system is a combination of ancient wisdom, accelerated learning and goal setting principles. Where most goal setting techniques focus on left-brain words and endless repetition to condition the goals into our minds, "Goal Mapping" uses imagery - the language of the subconscious. The Goal Maps combine words with pictures and symbols, and are thus able to impact on both the left and the right sides of the brain, to create extraordinary power. Whatever your dream, "Goal Mapping" can help you achieve it.
