Brand New Book ***** Print on Demand *****.Excerpt from Lectures on the History of the Church of Scotland, Vol. 1 of 2: From the Reformation to the Revolution Settlement The period embraced in the following Course of Lectures is not only the most interesting, and, on constitutional grounds, the most important, in the annals of the Church of Scotland, but it is also that to which the Author chiefly devoted his attention in all his researches into Scottish ecclesiastical history, and on which his voluminous collection of manuscripts, contemporaneous literature, and extracts from public registers was more especially complete. He had long contemplated, and continued long to hope for leisure to undertake, a History of the Church in the sixteenth and seventeenth centuries, to be derived, for the most part, from original sources, and which, besides an account of its learning, its theological doctrines, its modes of worship, its government and discipline, should also include a number of kindred topics possessing hardly inferior interest.
